Carmelo Mario Vicario

Editor in Chief - cvicario@unime.it

Dear Readers,

It is with great pleasure and excitement that I introduce the inaugural issue of PRELIMINARY REPORTS AND NEGATIVE RESULTS in Life Science and Humanities (PRNR), a scholarly platform dedicated to bridging the realms of life sciences and humanities. As Editor in-Chief of this journal, I am honoured to embark on this journey alongside our esteemed contributors, reviewers, and readers.

At PRNR, our mission is to foster interdisciplinary dialogue and collaboration, recognizing the interconnectedness of scientific inquiry and humanistic exploration. With an unwavering commitment to intellectual rigor and academic excellence, we aim to showcase cutting-edge research that transcends disciplinary boundaries and enriches our understanding of the world around us.

In the pages of this inaugural issue, you will find a diverse array of articles spanning a wide spectrum of topics, including Neuropsychology (D'Amico et al., 2024), Neurology (La Manna et al. 2024), Political Psychology (Vicario and Lucifora, 2024), Social Psychology (Casula et al., 2024), Geography (Messina et al., 2024), Sociology (Nucera, 2024) and History of Arts (Certo, 2024).

As we embark on this exciting endeavour, I extend my heartfelt gratitude to all those who have contributed to the realization of PRNR. To our authors, whose groundbreaking research serves as the foundation of this publication, we offer our deepest appreciation for entrusting us with your work. To our reviewers, whose expertise and dedication ensure the integrity and quality of our content, I extend our sincere thanks for your invaluable contributions. And to our readers, whose curiosity and engagement drive us forward, I extend a warm welcome and invite you to join us on this intellectual journey.

As we look to the future, we are filled with optimism and enthusiasm for the possibilities that lie ahead. With your continued support and participation, I am confident that PRNR will serve as a beacon of excellence and innovation in the realm of interdisciplinary scholarship.

Thank you for being a part of this momentous occasion. I look forward to embarking on this exciting journey together.

Warm regards,
